School of Global Affairs

BA 3rd Semester in Urban Sustainability

Field work at Aravalli Biodiversity Park, Vasant Vihar, New Delhi on 12/11/2025.

A field trip was organized for the 3rd semester students of BA in Urban Sustainability to give them a real-life exposure of ecosystem functions and relevant practices of environmental conservation. During the field work, the students interacted with the Nature Education Officer of the Aravalli Biodiversity Park and got to know about conservational practices, ecological food chain in the park, life cycle of butterflies and their role in maintaining the ecosystem, verity of medicinal plants, illegal practices of hunting & poaching, and the history of the place. The trip was educational, enjoyable, and inspired students to care more for the environment and promote sustainable living.
