

# Sophos Connect Client installation and configuration

\*This is one time installation only

1. Visit Remote Access on [aud.ac.in](http://aud.ac.in) to download the Sophos Connect Client software package.

The screenshot shows the top navigation bar of the AUD website. It includes logos for Digital India, Tenders Delhi, National Academic Repository, and a logo with glasses. Below the logos is a blue navigation menu with five columns: Main Links, Quick Links, Disclosures, Contact Details, and Connect With Us. The 'Remote Access' link in the Quick Links column is highlighted with a red box.

2. Under Remote Access Page, [download](#) the Sophos Connect Client setup.

The screenshot shows the 'Remote (VPN/INFED) Access' page. The page title is 'Remote (VPN/INFED) Access'. Below the title is a breadcrumb trail: Home » Services » Library » Remote (VPN/INFED) Access. On the left is a 'Services' sidebar with 'Library' selected. The main content area is titled 'E-Resources access from Home' and contains the text 'AUD VPN Access ( for Accessing electronic Journals from Home)'. It states 'Preferred way of E-resource access' and 'Please install the software as mentioned in the manual (First Time activity)'. Below this text is a table with two rows: 'Sophos Connect Client Manual' and 'Sophos Connect Client Setup'. Both rows have a 'Click Here' button, which is highlighted with a red box.

Open Sophos\_Connect\_Client.zip file. This file will have an installer and a Configuration file.

- SophosConnect.msi – For Windows OS
- Sophos Connect.pkg – For MAC OS
- AUD\_VPN – Configuration File

3. Install and Open SophosConnect.msi
4. Click **Import Connection** and select the .tgb

The screenshot shows the Sophos Connect web interface. The top bar has 'SOPHOS' on the left and 'Connections' and 'Events' in the center. Below the bar is the Sophos Connect logo and the text 'No connections yet. Import a connection'. A blue button labeled 'Import connection' is visible. Below this is a large white box containing the text: 'For instructions on how to create a remote access profile for Sophos Connect on XG Firewall, see the following information: [Create Sophos Connect profile](#)'.

5. Click **Connect** to enable the connection.

6. Enter the user's credential and click **Sign In**.

7. User can now browse desired Journal or can Visit <https://aud.ac.in/services-1/library/e-resources> for details list of available Journal List
